

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SINDHUJA MICROCREDIT PRIVATE LIMITED

Report on the Audit of the financial statements

Opinion

We have audited the accompanying financial statements of **SINDHUJA MICROCREDIT PRIVATE LIMITED** ("the Company"), which comprise the Balance sheet as at 31st March 2026, and the statement of Profit and Loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies and other explanatory information. (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its loss (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statement.

Information Other than the financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board report but does not include the financial statements and our auditor's report thereon. The Company's Board report is expected to be made available to us after the date of this auditor's report.

Our opinion on financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Board report identified above, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Responsibilities of Management and Those Charged with Governance for the financial statements

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is

sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Ind AS financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143 (11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, based on our audit, we report that:-

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in paragraph 2(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rule, 2014.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 2(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rule, 2014.
- g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended :

The provisions of section 197 read with Schedule V to the Act are not applicable to the Company since the Company is not a public company as defined under section 2(71) of the Act. Accordingly, reporting under section 197(16) is not applicable.

- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:-
 - i. the Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements. Refer Note 45 to the Ind AS financial statements.
 - ii. The Company has made provision, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long-term contracts including derivative contracts. – Refer Note 43 to the Ind AS financial statements.

SS KOTHARI MEHTA
& CO. LLP
CHARTERED ACCOUNTANTS

- iii. there were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31st March 2026.
- iv. (a.) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b.) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c.) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. the company has not declared or paid any dividend during the year ended March 31, 2026.
- vi. Based on our examination which included test checks, the Company has used accounting software and loan management software for maintaining its books of account which has feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.

Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, wherein the audit trail functionality was enabled and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1 under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of SINDHUJA MICROCREDIT PRIVATE LIMITED of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company’s Property, Plant and Equipment and Intangible Assets:
 - a. (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.
 - b. The Property, Plant & Equipment have been physically verified by the management during the year and no material discrepancies were identified on such verification.
 - c. Based on the information and explanation given to us, the Company does not have any immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), hence reporting under clause 3(i) (c) of the order is not applicable.
 - d. According to the information and explanation given to us and based on our examination of records, the Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
 - e. According to the information and explanation given to us and based on our examination of records, no proceedings have been initiated during the year or are pending against the Company as at March 31, 2026 for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii. (a) The Company does not have any inventory and hence reporting under clause 3(ii)(a) of the Order is not applicable.

(b) The company has not been sanctioned working capital limits in excess of rupees five crore. Accordingly, the requirement to report on paragraph 3 (ii) (b) of the order is not applicable to the company.
- iii. (a) Since, the Company’s Principal business is to give loans and accordingly, the requirement to report on clause 3(iii)(a) of the Order is not applicable as the Company.

SS KOTHARI MEHTA & CO. LLP

CHARTERED ACCOUNTANTS

- (b) In our opinion, the investments made and the terms and conditions of the grant of all loans provided, during the year are, prima facie, not prejudicial to the Company's interest. Company has not provided any guarantee or security to companies, firms, Limited Liability Partnerships or any other parties.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are generally been regular as per stipulation. Since, the Company is NBFC and considering the significant volume of transactions with number of borrowers furnishing the number of cases of default is practically not feasible.
- (d) In respect of loans granted by the Company, the details of total amount overdue above 90 days are as follows:-

(Amount in Rs. in Lakhs)

Type of Loan	Nos of Cases	Principal Overdue	Interest Overdue	Total Overdue
JLG (Joint Liability Group)	7,821	909.58	137.87	1,047.45
MSME (Micro Small & Medium Enterprises Loans)	20	19.52	14.91	34.43
Total	7,841	929.10	152.78	1,081.88

Based on the information & explanations given to us, reasonable steps have been taken by the Company for the recovery of the Principal & Interest.

- (e) Reporting under clause 3(iii)(e) of the Order is not applicable as the Company is a Non-Banking Financial Company whose principal business is to give loans.
- (f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence the reporting under clause 3(iii)(f) is not applicable.
- iv. According to the information and explanations given to us, there are no transactions which are required to be reported under Section 185 of the Act, accordingly, provisions of section 185 of the Act are not applicable to the Company. However, the Company has complied with the provisions of section 186 of the Act in respect of investments made.
- v. The Company has not accepted any deposit or there are no amounts which are deemed to be deposits within the meaning of section 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rule 2014 (as amended) . Hence, reporting under clause 3(v) of the Order is not applicable.
- vi. The maintenance of cost records has not been specified by the Central Government under sub- section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Hence, reporting under clause 3(vi) of the Order is not applicable to the Company.
- vii. In respect of statutory dues:

SS KOTHARI MEHTA
& CO. LLP
CHARTERED ACCOUNTANTS

- a. In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2026 for a period of more than six months from the date they became payable.

- b. According to the records and information and explanation given to us, there are no dues in respect of statutory dues referred to in vii (a) above which have not been deposited on account of any dispute.

- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

- ix. (a) According to the information and explanation given to us and based on our examination of records, the Company has not defaulted in repayment of loans or other borrowings or in the payment of Interest thereon to any lender and hence, reporting under clause 3(ix)(a) of the Order is not applicable.

(b) Based on the information and explanations obtained by us, the Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) Money raised during the year by the Company by way of term loans has been applied for the purpose for which they were raised other than temporary deployment pending application of proceeds.

(d) According to the information and explanation given to us and based on our overall examination of records, funds raised on short- term basis have, prima facie, not been used during the year for long-term purposes by the Company.

(e) According to the information and explanation given to us and based on our examination of records, the company does not have any subsidiary, associate or joint venture. Hence, reporting under clause 3(ix)(e) and clause 3(ix)(f) of the Order is not applicable.

(f). According to the information and explanation given to us and based on our examination of records, the Company has not raised loans on the pledge of securities held in its subsidiary, associate or joint venture during the year. Further, the company does not have any subsidiary, associate or joint venture. Hence, reporting under clause 3(ix)(f) of the Order is not applicable.

- x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and based on our examination of records of the company, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly clause 3(x)(b) of the order is not applicable.

- xi. (a) No material fraud by the Company or on the Company has been noticed or reported during the year except as follows:

We have been informed that the few employees of the Company had misappropriated funds amounting to Rs 6.13 lakhs during the year out of which Rs. 3.51 lakhs have been recovered. Investigations are in progress and the employees has been dismissed.

(b) According to the information and explanation given to us and based on our examination of records, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.

(c) As represented to us by the management, there are no whistle-blower complaints received by the Company during the year.

- xii. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.

- xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable Ind AS.

- xiv. (a) According to the information and explanation given to us and based on our examination of records, in our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.

(b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date of our report, in determining the nature, timing and extent of our audit procedures.

- xv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.

- xvi. (a) The Company has registered as required, under Section 45-IA of the Reserve Bank of India Act, 1934.

(b) The Company has not conducted any Non-Banking Financial activities without a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.

**SS KOTHARI MEHTA
& CO. LLP**
CHARTERED ACCOUNTANTS

(c) According to the information and explanations given to us and based on our examination of the records, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India, accordingly, paragraph 3(xvi)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and based on our examination of the records, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016).

- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors during the year and accordingly, requirement to report on Clause 3(xviii) is not applicable to the Company.
- xix. According to the information and explanation given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. (a) The provisions of Section 135 to the Companies Act, 2013 in relation to Corporate Social Responsibility is not applicable to the Company. Accordingly, the requirement to report on clause 3(xx)(a) and 3(xx)(b) of the Order is not applicable to the Company.

“Annexure B” to the Independent Auditor’s Report of even date on the financial statements of SINDHUJA MICROCREDIT PRIVATE LIMITED.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”) as referred to in paragraph 2(g) of ‘Report on Other Legal and Regulatory Requirements’ of our Independent Auditor’s Report

We have audited the internal financial controls with reference to financial statements of **SINDHUJA MICROCREDIT PRIVATE LIMITED** (“the Company”) as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls with reference to the Ind AS financial statement criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system with reference to Ind AS financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, based on the records, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Sindhuj Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

1. Corporate Information

Sindhuj Microcredit Private Limited ("the Company") is a private limited Company incorporated under the provisions of the Companies Act, 2013 (the "Act") and having its registered office at Noida Uttar Pradesh, India. The Company is a non-deposit accepting Non-Banking Financial Company ('NBFC-ND') and is registered as a Non-Banking Financial Company – Micro Finance Institution ('NBFC-MFI') with the Reserve Bank of India ("RBI") on 11 September 2018. The Company is engaged primarily in providing micro finance services to women in the rural and semi-rural areas of India who are enrolled as members and organized as Joint Liability Groups ('JLG').

2. Basis of Preparation of Financial Statements

2.01 Statement of compliance with Ind AS

The financial statements of the Company as at and for the year ended March 31, 2026, have been prepared in accordance with requirements of Indian Accounting Standards ("Ind AS") notified by under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) as prescribed under Section 133 of the Companies Act, 2013. ('Act') , guideline issued by RBI, other accounting principles generally accepted in India and presentation requirements of Division III of Schedule III of the Act (Ind AS compliant Schedule III) as applicable to the Company.

In addition, the guidance notes/announcements issued by the Institute of Chartered Accountants of India (ICAI) are also applied along with compliance with other statutory promulgations which require a different treatment. The notified Accounting Standards (AS) are followed by the Company insofar as they are not inconsistent with the NBFC Regulations. Any directions issued by the RBI or other regulators are implemented as and when they become applicable.

The financial statements have been prepared using the material accounting policies and measurement bases summarized below. The accounting policies have been used throughout all periods presented in these financial statements. These financial statements have been prepared on a going concern basis.

i. Going Concern

Management is of the view that having regard to the projections of the business prospects, Company shall be able to continue as a going concern. Accordingly, management considers it appropriate to prepare these financials statements on a going concern basis.

The financial statements have been prepared using the material accounting policies and measurement bases summarized as below. These policies are applied consistently for all the periods presented in the financial statements.

ii. Presentation of financial statement

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and notified under section 133 of the Companies Act, 2013 (the Act) along with other relevant provisions of the Act and the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2020 , as amended

Sindhujha Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

('the NBFC Master Directions') issued by RBI. The financial statements have been prepared on a going concern basis.

The Company uses accrual basis of accounting except in case of significant uncertainties. The financial statements are presented in Indian Rupees (INR) and all values are rounded to the crores up to two decimals, except when otherwise indicated. The regulatory disclosures as required by RBI Master Directions to be included as a part of the Notes to Accounts are also prepared as per the Ind AS financial statements.

The Company presents its balance sheet in order of liquidity. Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- (a) The normal course of business
- (b) The event of default
- (c) The event of insolvency or bankruptcy of the Group and / or its counterparties

iii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies below. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

iv. Functional & presentation currency

The financial statements are presented in Indian Rupees which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates and all values are rounded to the nearest lakhs, except when otherwise indicated.

v. Use of estimates, judgements and assumptions

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Example: Business model assessment, effective rate of Interest.

3. Material accounting policies

Material accounting policies adopted by the Company are as under:

3.01 Revenue Recognition

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Company's revenue primarily consists of interest income on loans, interest income on fixed deposit, Interest income in business correspondent arrangement, Income from direct assignment and dividend Income.

Sindhuj Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

The Company recognises revenue from contracts with customers based on a five-step model as set out in Ind AS 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Income from other financial charges including cheque bouncing charges, foreclosure charges are collected from loan customers for early payment/closure of loan and are recognised on realisation.

i. Interest and similar Income

Under Ind AS 109 interest income is recorded using the Effective Interest Rate (EIR) method for all financial instruments measured at amortised cost, debt instrument measured at FVTOCI and debt instruments designated at FVTPL. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the gross carrying amount of the financial asset.

The EIR (and therefore, the amortised cost of the asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the financial instrument. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk. The adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through Interest income in the statement of profit and loss.

The Company calculates interest income by applying the EIR i.e. Spreading the processing fees over the period of loan term and recognising the time-based proportionate processing fees to the gross carrying amount of financial assets other than credit-impaired assets. When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial assets cures and is no longer credit-impaired, the company reverts to calculating interest income on a gross basis.

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

Gains arising out of direct assignment transactions comprise the difference between the interest on the loan portfolio and the applicable rate at which the transaction is entered into with the assignee, also known as the right of Excess Interest Spread (EIS). The future EIS basis the scheduled cash flows on execution of the transaction, discounted at the applicable rate is recorded upfront in the statement of profit and loss. EIS is evaluated and adjusted for ECL, expected prepayment & expected collection cost.

ii. Income from assignment transactions

The Company considers direct Assignment or transfer of loan assets as one of the alternative mode of revenue. Income from assignment transactions i.e. present value of excess interest spread is recognised when the related loan assets are de-recognised.

iii. Interest Income on deposit with bank

Interest income on fixed deposits with bank is recognised on a time proportion accrual basis taking into account the amount outstanding and the interest rate applicable.

iv. Gain / (loss) on fair value changes of financial asset

The Company designates certain financial assets for subsequent measurement at Fair Value Through Profit or Loss (FVTPL). The Company recognises unrealised gains/(loss) on fair value change of financial assets measured at FVTPL and realised gains/(loss) on derecognition of financial asset measured at FVTPL on net basis.

v. Income from business correspondent arrangements

The company entered into a contract to guarantee third-party loans, agreeing to reimburse losses if end customers default. In return, it earns a fee and recognizes both a financial asset and liability. Interest income from the asset is recognized over time as and when the services are rendered as per agreed terms and conditions of contract, while the liability is amortized on a straight-line basis.

vi. Other Income

All other income is recognised on an accrual basis, when there is no uncertainty in the ultimate realization/collection.

3.02 Property, Plant and equipment (PPE)

An item is recognised as an asset, if and only if, it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. PPE are initially recognised at cost. The initial cost of PPE comprises its purchase price (including non-refundable duties and taxes but excluding any trade discounts and rebates), and any directly attributable cost of bringing the asset to its working condition and location for its intended use. Subsequent to initial recognition, PPE are stated at cost less accumulated depreciation and any impairment losses. When significant parts of property, plant and equipment are required to be replaced in regular intervals, the Company recognises such parts as separate component of assets. When an item of PPE is replaced, then its carrying amount is de-recognised from the balance sheet and cost of the new item of PPE is recognised. The expenditures that are incurred after the item of PPE has been put to use, such as repairs and maintenance, are normally charged to the statement of profit and loss in the period in which such costs are incurred. However, in situations where the said expenditure can be measured reliably and is

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

probable that future economic benefits associated with it will flow to the Company, it is included in the asset's carrying value or as a separate asset, as appropriate.

Capital work in progress includes the cost of property, plant and equipment that are not yet ready for their intended use and the cost of assets not put to use before the Balance Sheet date.

Based on technical assessment by the management or as useful life prescribed in Schedule II of the Companies Act, 2013 represent actual useful life of property, plant and equipment. We have used following useful lives to provide depreciation of different class of its property, plant and equipment:

Type of Asset	Estimated Useful Life
Vehicle	8 years
Electrical equipment	10 years
Office equipment	5 years
Furniture & fixture	10 years
Computer equipment	3 years

Depreciation is calculated on pro-rata basis from the date on which the asset is ready for use or till the date asset is sold or disposed.

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(ii) De-Recognition

Property and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other operating income in the Statement of profit and loss in the year in which the asset is derecognised.

The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

3.03 Intangible assets

'Intangible assets are recognized only if it is probable that future economic benefits that are attributable to the assets will flow to the enterprise and the cost of assets can be measured reliably. The intangible assets are recorded at cost and are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets are derecognised on disposal or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised in the Statement of Profit and Loss when the asset is derecognised.

Intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets include computer software, which are acquired, capitalized and amortized on a useful life of assets prescribed under Schedule II of the Companies Act, 2013.

Type of Asset

Computer software

Estimated Useful Life

3 years

Intangible assets under development

Intangible assets under development represents expenditure incurred in respect of intangible assets under development and are carried at cost. Cost includes development cost, borrowing costs and other direct expenditure necessary to create, produce and prepare the asset to be capable of operating in the manner intended by management. These are recognized as assets when the Company can demonstrate following recognition requirements:

1. The development costs can be measured reliably
2. The project is technically and commercially feasible
3. The Company intends to and has sufficient resources to complete the project
4. The Company has the ability to use or sell such intangible asset
5. The asset will generate probable future economic benefits

Amortization of the asset begins when development is complete and the asset is available for use

3.04 Impairment of non-financial assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit & Loss. The recoverable amount is the greater of the asset's fair value less costs of disposal and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate pre-tax discount rate to determine whether there is any indication that those assets have suffered any impairment loss. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

3.05 Leases

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

Company as a lessee

A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To apply this definition the Company assesses whether the contract meets three key evaluations which are whether:

Sindhuj Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Company

The Company has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract the Company has the right to direct the use of the identified asset throughout the period of use.

The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

At lease commencement date, the Company recognizes a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in profit or loss on a straight-line basis over the lease term.

Determining the lease term of contracts with renewal and termination options where Company is lessee -

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination.

3.06 Retirement and other employee benefits

a. Short-term obligations

All employee benefits payable wholly within twelve months of rendering the services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is charged to the Statement of Profit and Loss in the period in which such services are rendered.

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

b. Other long-term employee benefit obligations

(i) Defined contribution plans

The Company's contribution to employee provident fund and employee state insurance scheme are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made.

(ii) Defined benefit plan

Benefits payable to eligible employees of the Company with respect to gratuity, a defined benefit plan is accounted for on the basis of an actuarial valuation as at the balance sheet date. In accordance with the Payment of Gratuity Act, 1972, the plan provides for lump sum payments to vested employees on retirement, death while in service or on termination of employment in an amount equivalent to 15 days basic salary for each completed year of service. Vesting occurs upon completion of five years of service. The present value of such obligation is determined by the projected unit credit method and adjusted for past service cost and fair value of plan assets as at the balance sheet date through which the obligations are to be settled. The resultant actuarial gain or loss on change in present value of the defined benefit obligation is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur.

3.07 Taxes

Income tax expense comprises of current and deferred tax. Current / Deferred tax is recognized in the Statement of Profit and Loss except to the extent it relates to a business combination or to an item which is recognized directly in equity or in other comprehensive income in which case the related income tax is also recognised accordingly. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority. The Company only off-sets its deferred tax assets against liabilities when there is both a legal right to offset and it is the Company's intention to settle on a net basis.

i. Current tax

Current tax is the amount of income taxes payable/ receivable in respect of taxable profit/ loss for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws. Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. Interest income / expenses and penalties, if any, related to income tax are included in current tax expense. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Company operates and generates taxable income.

ii. Deferred taxes

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax is recognized based on the expected manner of realization or settlement of the carrying amount of assets and liabilities using tax rates enacted or substantially enacted by the end of the reporting period.

Deferred tax assets are recognized only to the extent that is probable that future taxable profits will be available against which the assets can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefits will be realized.

iii. Current tax and deferred tax for the year

Current tax and deferred tax are recognised in statement of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

3.08 Provisions, Contingent liabilities and Contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The increase in the provision due to un-winding of discount over passage of time is recognised within finance costs. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement in other operating expenses.

Where it is more likely that no present obligation exists at the end of the reporting period, the entity discloses a contingent liability, unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognized in the financial statements, however they are disclosed when an inflow of economic benefits is probable.

3.09 Determination of Fair Value

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above at each balance sheet date.

Fair value is the price at the measurement date, at which an asset can be sold or paid to transfer a liability, in an orderly transaction between market participants at the measurement date.

The Company's accounting policies require, measurement of certain financial / non-financial assets and liabilities at fair values (either on a recurring or non-recurring basis). Also, the fair values of financial instruments measured at amortised cost are required to be disclosed in the said financial statements.

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

The Company is required to classify the fair valuation method of the financial / non-financial assets and liabilities, either measured or disclosed at fair value in the financial statements, using a three-level fair value-hierarchy (which reflects the significance of inputs used in the measurement).

Accordingly, the Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy described as follows:

-Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

-Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

-Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

3.10 Financial instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised when the Entity becomes a party to the contractual provisions of the instruments.

i. Financial assets

Initial Recognition

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the asset.

Subsequent measurement

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in Statement of profit and loss. Any gain and loss on derecognition is recognised in statement of profit and loss.

Financial investment at FVTOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in Statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit and loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in statement of profit and loss.

All other equity investments are measured at fair value, with value changes recognised in Profit and loss, except for those equity investments for which the company has elected to present the changes in fair value through OCI.

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

Financial assets measured at amortised cost

A 'debt instrument' is measured at amortised cost if both the following conditions are met:

- a. The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows.
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement at fair value plus directly attributable costs, these financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss. The measurement of credit impairment is based on the three-stage expected credit loss model described below.

Business model

The business model reflects how the company manages the assets in order to generate cash flows. That is, whether the company's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVTPL.

SPPI (Solely payments of principal and interest)

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Company assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss. The amortised cost, as mentioned above, is computed using the effective interest rate method.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount on initial recognition. Transaction cost and income which is directly attributable to financial assets are amortised over the tenor of the loan. The amortised cost of the financial asset is adjusted if the company revises its estimates of payments or receipts. The adjusted amortised cost is calculated based on the original or

Sindhuj Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

latest re-estimated EIR and the change is recorded as 'Interest and similar income' for financial assets. Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL.

Financial Instrument measured at fair value through profit or loss

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

ii. Equity instruments

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets. Examples of equity instruments include basic ordinary shares.

iii. Financial liabilities

Initial Measurement

Financial liabilities are classified and measured at amortized cost. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent Measurement

Subsequent to initial recognition, all liabilities are measured at amortized cost using the effective interest method except for derivatives, financial liabilities designated for measurement at FVTPL which are measured at fair value.

Impairment of financial assets

The company applies the expected credit loss (ECL) model for recognising impairment loss as against norms of RBI.

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the company expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months from the reporting date.

The company assesses at each reporting date whether a financial asset such as investments, loans and advances, non-fund-based limits not designated as FVTPL and security deposits held at amortised cost

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Lifetime Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

No ECL is recognised on equity investments.

Definition of default

The Company considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

PD estimation process

Probability of Default (PD) is an estimate of the likelihood of default in a homogenous pool of loans, over its performance period of following 12 month / lifetime horizon. PD estimation process is done based on historical & empirical internal data available with the company. 'Company calculates the 12-month PD by taking into account the past historical trends of the portfolio, credit performance including actual default data and Macro economic variables. For credit impaired assets (Stage 3), a PD of 100% is applied.

Exposure at Default (EAD)

EAD refers to the expected exposure to a borrower in the event of default. The Company considers the historical prepayments and uses the behavioural maturity of loans while calculating lifetime ECL for loans. The asset maturity pattern of the loans is used to estimate the expected balance at the end of each year after the reporting date. The asset maturity pattern of the loans is adjusted for prepayments using the historical prepayment rate.

Loss Given Default (LGD)

It is defined as the percentage risk of exposure that is not expected to be recovered in the event of default. Workout method is used to calculate the LGD by considering post default recoveries from all defaulted loans and comparing them with the balance outstanding at default. Such recoveries are discounted to the date of default using the interest rate of the loan. LGD is then calculated as the % of exposure not recovered at the date of default.

Financial assets are classified through the following three stages based on the change in credit risk since initial recognition:

Stage 1: This includes financial instruments that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12-month expected credit losses ('ECL') are recognized and interest revenue is calculated on the gross carrying amount of the asset (that is, without deduction for credit allowance). 12-month ECL are the expected credit losses that result from default events that are possible within 12 months after the reporting date.

Stage 2: Includes financial instruments that have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but that do not have objective evidence of impairment. For these assets, lifetime ECL is recognized, but interest revenue is still calculated on the gross carrying amount of the asset. Lifetime ECL are the expected credit losses that result from all possible default events over the expected life of the financial instrument.

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

Stage 3: Includes financial instruments that have objective evidence of impairment at the reporting date. This stage has obligors that already are impaired (defaulted). For these assets, lifetime ECL is recognized. And interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount.

Credit-impaired financial assets:

At each reporting date, the company assesses whether financial assets carried at amortised cost and debt financial assets carried at FVTOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- a) Significant financial difficulty of the borrower or issuer;
- b) A breach of contract such as a default or past due event;
- c) The restructuring of a loan or advance by the company on terms that the company would not consider otherwise;
- d) It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- e) The disappearance of an active market for a security because of financial difficulties.

Measurement of ECLs

The measurement of ECL reflects:

- a) An unbiased and probability weighted amount that is determined by evaluating a range of possible outcomes
- b) The time value of money
- c) Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

ECLs are derived from unbiased and probability weighted estimates of expected loss, and are measured as follows:

- Financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls over the expected life of the financial asset discounted by the effective interest rate. The cash shortfall is the difference between the cash flows due to the company in accordance with the contract and the cash flows that the company expects to receive.
- Financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows discounted by the effective interest rate.
- Undrawn loan commitments: as the present value of the difference between the contractual cash flows that are due to the company if the commitment is drawn down and the cash flows that the company expects to receive.

ECLs are recognised using a provision for doubtful debts account in profit and loss. In the case of debt instruments measured at fair value through other comprehensive income, the measurement of ECLs is based on the three-stage approach as applied to financial assets at amortised cost. The company

Sindhuja Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

recognises the provision charge in profit and loss, with the corresponding amount recognised in other comprehensive income, with no reduction in the carrying amount of the asset in the balance sheet.

Write-off

Loans and debt securities are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the company's procedures for recovery of amounts due.

Derecognition of financial assets and financial liabilities

Financial assets

The Company derecognizes a financial asset when the contractual cash flows from the asset expire or it transfers its rights to receive contractual cash flows from the financial asset in a transaction in which substantially all the risks and rewards of ownership are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the statement of profit and loss.

Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are generally reported gross in the balance sheet. Financial assets and liabilities are offset and the net amount is presented in the balance sheet when the Company has a legal right to offset the amounts and intends to settle on a net basis or to realise the asset and settle the liability simultaneously in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Company and/or its counterparties

3.11 Financial guarantee

Financial guarantee are contracts that require the Company to make specified payments to reimburse the holder for loss that it incur because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument.

Financial Guarantee contract is initially recognised at Fair Value. Subsequently, this guarantee is to be measured at the higher of an amount determined based on the expected loss method (as per guidance in Ind AS 109) or the amount originally recognised less, the cumulative amount recognised as income on a straight-line basis.

Sindhujha Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

3.12 Derivative Financial Instruments

The Company enters into derivative financial instruments, primarily foreign exchange forward contracts, currency swaps and interest rate swaps, to manage its borrowing exposure to foreign exchange and interest rate risks. Derivatives embedded in non-derivative host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL. Derivatives are initially recognised at fair value at the date the contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain/loss is recognised in statement of profit and loss.

Hedge accounting

The Company makes use of derivative instruments to manage exposures to interest rate and foreign currency. In order to manage particular risks, the Company applies hedge accounting for transactions that meet specified criteria.

Hedges that meet the criteria for hedge accounting are accounted for, as described below:

Fair value hedges the exposure to changes in the fair value of a recognised asset or liability, or an identified portion of such an asset, liability, that is attributable to a particular risk and could affect profit or loss.

For designated and qualifying fair value hedges, the cumulative change in the fair value of a hedging derivative is recognised in the statement of profit and loss in net gain/(loss) on fair value changes. Meanwhile, the cumulative change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item in the balance sheet and is also recognised in the statement of profit and loss in net gain/(loss) on fair value changes.

3.13 Share-based payment arrangements

The stock options granted to employees pursuant to the Company's Stock Options Schemes, are measured at the fair value of the options at the grant date in accordance with IND AS 102, Share-based payments. The fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period on a straight-line basis. The amount recognised as expense in each year is arrived at based on the number of grants expected to vest. If a grant lapses after the vesting period, the cumulative discount recognised as expense in respect of such grant is transferred to the general reserve within equity.

Fair value of share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which depends on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option or appreciation right, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity-settled transactions with employees at the grant date, the Company uses a Black-Scholes model.

3.14 Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023,

Sindhuj Microcredit Private Limited

CIN: U65990UP2017PTC099006

Notes to the Material accounting policies and other explanatory information

(All amounts in INR Lakhs, unless otherwise stated)

MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

4 Cash and cash equivalents

Particulars	As at 31 March 2026	As at 31 March 2025
Balances with banks:		
-In current accounts	742.97	1,213.32

Cross currency swap rate contract not designated in hedge accounting relationship * (refer Note-56.3)	989.85	72.12
Total	989.85	72.12

Qualitative Disclosures

The Company, in accordance with regulations set forth by the Reserve Bank of India for Non-Banking Financial Companies engaged in Microfinance (NBFC-MFIs), complies with FEMA Regulations, notifications, and circulars issued for External Commercial Borrowings.

Given the inherent volatilities and uncertainties in the global Foreign Exchange markets, the Company faces potential risk due to adverse currency movements as it holds foreign currency liabilities. Additionally, the Company is also exposed to interest rate risk on its long-term Foreign Currency Loans.

To mitigate these risks, the company has implemented a Forex Risk Management policy aimed at reducing the probability and potential costs of financial distress by achieving currency and interest rate neutrality. Under this policy, any exposure in foreign currency is fully hedged covering the currency risk as well as the interest rate risk on the day of the liability's emergence. The authority to make decisions regarding the quantum and tenor of hedging is delegated by the Board committee/Board of Directors as necessary.

Furthermore, the company adheres to accounting standards and guidance notes issued by the Institute of Chartered Accountants of India for the recognition of losses, gains, creation of assets or liabilities. The foreign currency exposure reporting is provided to the board on an annual basis to ensure comprehensive oversight.

Quantitative Disclosures*

In terms of Section 45-IC of the RBI Act, 1934, the Company is required to transfer at least 20% of its net profits to a reserve before any dividend is declared. As at the year-end, the Company has transferred an amount of Nil (31 March 2025: Nil)

* The amount pertaining to Optionally Convertible Redeemable Preference Shares is net of deferred tax.

Nature and purpose of other reserve :

(i) Statutory reserves

The said reserve has been created under section 45-IC of Reserve Bank of India Act, 1934. As per the said section, every Non-banking financial Company shall create a reserve fund and transfer a sum of not less than 20% of net profit every period before declaration of dividend.

(ii) Securities premium reserves

Securities premium reserves is used to record the premium received on issue of shares. It is utilised in accordance with the provisions of the Companies Act, 2013.

(iii) Retained earnings

Retained earnings are the profits/(loss) that the Company has earned/incurred till date, less any transfers to statutory reserve, dividends or other distributions paid to shareholders. Retained earnings is a free reserve available to the Company and eligible for distribution to shareholders, in case where it is having positive balance representing net earnings till date.

(iv) Employee stock option plan reserve

The said amount is used to recognise the grant date fair value of options issued to employees by the Company.

Remeasurements of defined benefit plans represents the following as per Ind AS 19, Employee Benefits:

- (a) actuarial gains and losses on defined benefit obligations
- (b) the return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset); and
- (c) any change in the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset)

(v) Other comprehensive income -

The OCI arising from gratuity and leave encashment represents actuarial gains and losses on defined benefit obligations, recognized in the period in which they occur. These are not reclassified to profit or loss in subsequent periods, in line with Ind AS 19.

(vi) Equity component of OCRPS (net of deferred tax)

This represents the difference between the transaction value and the present value in case of interest free/ below Market rate borrowings - (i.e. Optionally convertible Redeemable Preference Shares (OCRPS)).

C Valuation of stock options

The fair value of the equity-settled options is estimated on the date of grant using Black-Scholes options pricing model taking into account the terms and conditions upon which the options were granted.

The following table lists the inputs to the model used for equity-settled options:

For the year ended 31 March, 2026

Valuation of Stock options granted	Tranche I	Tranche II	Tranche III	Tranche IV	Tranche V
Grant date	05-Nov-19	10-Nov-20	25-Nov-21	12-Nov-22	20-Nov-23
Number of options granted	82,917	1,40,934	90,000	96,968	64,000
Vesting dates	05-Nov-20	10-Nov-21	25-Nov-22	12-Nov-23	20-Nov-24
Fair value of option	8.45	14.70	14.69	55.56	87.63
Exercise price	33.83	33.83	33.83	33.83	33.83
Expected volatility	12.68%	19.64%	20.67%	21.75%	21.10%
Basis of determination of expected volatility:					
Contractual option life (years) (till exercise period)	4 years	4 years	4 years	4 years	4 years
Risk free interest rate	7.16%	6.92%	6.73%	6.54%	6.64%
Model used	Black Scholes Model	Black Scholes Model	Black Scholes Model	Black Scholes Model	Black Scholes Model

For the year ended 31 March, 2025

Valuation of Stock options granted	Tranche I	Tranche II	Tranche III	Tranche IV	Tranche V
Grant date	05-Nov-19	10-Nov-20	25-Nov-21	12-Nov-22	20-Nov-23
Number of options granted	82,917	1,40,934	90,000	96,968	64,000
Vesting dates	05-Nov-20	10-Nov-21	25-Nov-22	12-Nov-23	20-Nov-24
Fair value of option	8.45	14.70	14.69	55.56	87.63
Exercise price	33.83	33.83	33.83	33.83	33.83
Expected volatility	12.68%	19.64%	20.67%	21.75%	21.10%
Basis of determination of expected volatility:					
Contractual option life (years) (till exercise period)	4 years	4 years	4 years	4 years	4 years
Risk free interest rate	7.16%	6.92%	6.73%	6.54%	6.64%
Model used	Black Scholes Model	Black Scholes Model	Black Scholes Model	Black Scholes Model	Black Scholes Model

The expected volatility was determined based on historical volatility data and the company expects the volatility of its share price may not differ from historical volatility. The measure of volatility used in the Black-Scholes options pricing model is the annualised standard deviation of the continuously compounded rates of return on the stock over a period of time.

Notes to financial statements for the year ended 31 March 2026

(All amounts in INR Lakhs, unless otherwise stated)

44 Earning per share

Basic earnings /(loss) per share amounts are calculated by dividing the profit/loss for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted earnings/(loss) per share is computed using the weighted average number of common and dilutive common equivalent shares outstanding during the year, except where the result would be anti-dilutive.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Ordinary equity shareholders		
Loss attributable to ordinary equity holders	(2,835.03)	(3,543.63)
Weighted average number of equity shares for basic EPS	4,69,59,781	4,69,44,833
Weighted average number of equity shares for diluted EPS	4,69,59,781	4,69,44,833
Face value per share	10.00	10.00
Basic earning per share (INR)	(6.04)	(7.55)
Diluted earning per share (INR)	(6.04)	(7.55)

Notes:

i. For the year ended March 31, 2026 and March 31, 2025: the computation of diluted EPS does not include the effect of employee stock options, as these potential equity shares are antidilutive hence, weighted average number of equity shares and diluted earning per share are restricted to Basic weighted number of equity shares and basic earning per share respectively.

ii. Weighted average shares mentioned above are numbers.

iii. As per Ind AS 33, Para 23 "Ordinary shares that will be issued upon the conversion of a mandatorily convertible instrument are included in the calculation of basic earnings per share from the date the contract is entered into". Consequently CCPS have been included in the computation of Basic EPS.

45 Contingent liabilities and commitments (to the extent not provided for)

Particulars	As at 31 March 2026	As at 31 March 2025
(a) Contingent liabilities		
Claims against the company not acknowledged as debts	-	-
Corporate guarantee towards loans	-	-
FLDG against business correspondence	102.60	1,538.81
(b) Commitments		
Estimated amount of contracts remaining to be executed on capital account and not provided for	-	-
Commitments related to loans sanctioned but not disbursed	-	-
Total	102.60	1,538.81

The Company believes that the amount or estimable range of reasonably possible loss, will not, either individually or aggregate, have a material adverse effect on its business, financial position, results of the Company, or cash flows with respect to loss contingencies for legal and other contingencies as at March 31, 2026

This space is intentionally left blank

46 Employee benefits

- (A) **Defined contribution plans -** The Company makes provident fund which are defined contribution plans for qualifying employees. Under the schemes, the Group is required to contribute a specified percentage of the basic salary to fund the benefits.

During the year, the Company has recognized the following amounts in the Statement of Profit and Loss -

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Employers' contribution to provident fund and other funds.	573.44	510.47
Employers' contribution to ESIC	83.78	71.63

(B) Defined benefit plans

- a) **Gratuity payable to employees** The Company provides for the gratuity, a defined benefit retirement plan covering qualifying employees. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of service.

Risks associated with plan provisions

Risks associated with the plan provisions are actuarial risks. These risks are:- (i) investment risk, (ii) interest risk (discount rate risk), (iii) mortality risk and (iv) salary risk

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to Government Bonds Yield. If plan liability is funded and return on plan assets is below this rate, it will create a plan deficit.
Interest risk (discount rate risk)	A decrease in the bond interest rate (discount rate) will increase the plan liability.
Mortality risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. For this report we have used Indian Assured Lives Mortality (2012-14) ultimate table. A change in mortality rate will have a bearing on the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

i) Actuarial assumptions

Particulars	As at 31 March 2026	As at 31 March 2025
Assumptions - Economic		
Discount rate (per annum)	5.80%	6.50%

47 Leases

Company is a lessee:

The Company has entered into lease agreements for office facility and such lease is generally non-cancellable in nature. Certain non-cancellable leases extend up to a maximum of three to five years from their respective dates of inception. The Company has applied short term lease exemption for leasing arrangements where the period of lease is less than 12 months.

A. The following is the movement in lease liabilities during the year ended 31 March 2026 and 31 March 2025:

Particulars	As at 31 March 2026	As at 31 March 2025
Opening balance	169.79	270.13
Additions during the year	607.77	-
Add: Interest Expenses	22.53	27.96
Less: Payments during the year*	(140.75)	(128.30)
Less: Lease derecognised during the year	(54.79)	-
Closing balance	604.55	169.79
Current	86.17	115.06
Non-current	518.38	54.73
Closing balance	604.55	169.79

*refer note 37 for lease payment made to related parties

B. The following are amounts recognised in statement of profit and loss:

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Depreciation expense of right-of-use assets	114.50	107.48
Interest expense on lease liabilities	22.53	27.96
Expenses relating to short-term leases	595.45	501.77
Total	732.48	637.21

The Company's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Company is restricted from assigning and subleasing the leased assets. There are several lease contracts that include extension, termination options, non financial restrictions and non financial covenants. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised. The Company does not have any lease contracts that contains variable payments.

C. The following are amounts recognised in cash flow statement:

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Total cash outflow for leases	140.75	128.30

D. Maturity of lease liabilities

The undiscounted maturity analysis of lease liabilities is as follows:

As at 31 March 2026	Minimum lease payments due				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Lease payments	157.42	158.81	166.75	335.17	818.15

As at 31 March 2025	Minimum lease payments due				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Lease payments	129.10	57.21	-	-	186.31

48 Segment Reporting

The Company operates in a single reportable segment i.e. financing which has similar risks and returns for the purpose of Ind AS 108 "Operating segments" is considered to be the only reportable business segment. The Company derives its major revenue from financing activities and its customers are widespread, Further, the company operates only in India which is considered as a single geographical segment.

49 Maturity analysis of asset & liabilities

50 Fair values of financial assets and financial liabilities

The fair value of other current financial assets, cash and cash equivalents, trade receivables, trade payables and other financial liabilities approximate the carrying amounts because of the short term nature of these financial instruments.

The amortized cost using effective interest rate (EIR) of non-current financial - term deposits is not significantly different from the carrying amount.

Financial assets that are neither past due nor impaired include cash and cash equivalents, security deposits, term deposits and other financial assets.

The amortized cost using effective interest rate (EIR) of financial liabilities including borrowing, trade payable is not significantly different from the carrying amount.

Fair value measurement of assets and liabilities				
Particulars	As at 31 March 2026		As at 31 March 2025	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial assets

Borrowing other than debt securities	52,646.82	52,646.82	49,112.31	49,112.31
Lease liability	604.55	604.55	169.79	169.79
Other financial liabilities	1,937.70	1,937.70	664.54	664.54
Total financial liabilities	77,519.77	77,519.77	69,893.40	69,893.40

51 Fair value hierarchy

The following is the hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

(A) The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis:

As at 31 March 2026			
Particulars	Level 1	Level 2	Level 3
Financial assets			
(a) Financial assets measured at fair value through profit or loss			
Derivative financial assets	-	989.85	-
As at 31 March 2025			
Particulars	Level 1	Level 2	Level 3
Financial assets			
(a) Financial assets measured at fair value through profit or loss			
Derivative financial assets	-	72.12	-

Note:

- There have been no transfers between Level 1 and Level 2 during the period.
- The carrying amount of cash and cash equivalents, trade receivables, other receivable, loans, other financial assets, trade payables, borrowing, lease liability, other payables, debt securities, other financial liabilities are considered to be the same as their fair values.

Valuation techniques and significant unobservable inputs

The Cross Currency Interest Rate Swaps (CCIRS) are measured at fair value using the mark-to-market (MTM) value shared by the contracting bank at balance sheet date.

52 Financial risk management objectives and policies

Introduction and risk profile -

The Company is exposed to various financial risks. These risks are categorized into credit risk and liquidity risk. The Company's risk management is coordinated by the Board of Directors and focuses on securing long term and short term cash flows. The Company does not engage in trading of financial assets for speculative purposes.

Sindhuj Microcredit Private Limited is one of the leading microfinance institutions in India focused on providing financial support to women from low income households engaged in economic activity with limited access to financial services. The Company predominantly offers collateral free loans to women from low income households, willing to borrow in a group and agreeable to take joint liability. The wide range of lending products address the critical needs of customers throughout their lifecycle and mainly include income generation Loans. With a view to diversifying the product profile, the company has introduced individual loans for matured group lending customers.

The major risks for the company are credit, operational, market, business environment, political, regulatory, concentration, expansion and liquidity.

(a) Risk management framework

The Board of Directors are responsible for the overall risk management approach and for approving the risk management strategies and principles. The Risk Management framework approved by the Board has laid down the governance structure supporting the identification, assessment, monitoring, reporting and mitigation of risk throughout the Company. The objective of the risk management platform is to make a conscious effort in developing risk culture within the organisation and having appropriate systems and tools for timely identification, measurement and reporting of risks for managing them.

The Board has a Risk Management committee which is responsible for monitoring the overall risk process within the Company and reports to the Board of Directors.

The Risk Management guidelines will be implemented through the established organization structure of Risk Department. The overall monitoring of the Risks is done by the Managing Director) with the support from all the department heads of the Company. The Board reviews the status and progress of the risk and risk management system, on a quarterly and half yearly basis through the Audit Committee and Risk Management Committee. The individual departments are responsible for ensuring implementation of the risk management framework and policies, systems and methodologies as approved by the Board. Assignment of responsibilities in relation to risk management is prerogative of the Heads of Departments. While each department focuses on its specific area of activity, the Risk Management Unit operates in coordination with all other departments, utilising all significant information sourced to ensure effective management of risks in accordance with the guidelines approved by the Board. The unit works closely with and reports to the Risk Committee, to ensure that procedures are compliant with the overall framework.

(b) Risk mitigation and risk culture

Risk assessments are conducted for all business activities. The assessments are to address potential risks and to comply with relevant legal and regulatory requirements. Risk assessments are performed by competent personnel from individual departments and risk management department including, where appropriate, expertise from outside the Company. The risk mitigation is planned using the following key strategies:

Risk avoidance: By not performing an activity that could carry risk. Avoidance may seem the answer to all risks, but avoiding risks also means losing out on the potential gain that accepting (retaining) the risk may have allowed.

Risk transfer: Mitigation by having another party to accept the risk, either partial or total, typically by contract or by hedging

Risk reduction: Employing methods/solutions that reduce the severity of the loss.

Risk retention: Accepting the loss when it occurs. Risk retention is a viable strategy for small risks where the cost of insuring against the risk would be greater over time than the total losses sustained. All risks that are not avoided or transferred are retained by default. This includes risks that are so large or catastrophic that they either cannot be insured against or the premiums would be infeasible.

(c) Risk measurement and reporting systems

The heads of all the departments in association with risk management are responsible for coordinating the systems for identifying risks within their own department or business activity.

The Management Level Risk Committee meetings are held as necessary. The Management Level Risk Committee would monitor the management of major risks specifically and other risks of the Company in general. The Committee takes an integrated view of the risks facing the entity and monitor implementation of the directives received from Risk Management Committee and actionable items drawn from the risk management framework.

Accordingly, the Management Level Risk Committee reviews the following aspects of business specifically from a risk indicator perspective - Review of business growth and portfolio quality, Review of process compliances across organisation, Review, where necessary, policies that have a bearing on the operational & credit risk management and recommend amendments.

(d) Risk Management: Strategies

Excessive risk concentrations

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry or geographical location. The following management strategies and policies are adopted by the Company to manage the various key risks.

A Political risk mitigation measures:

High social focused activities
Low cost operations and low pricing for customers
Robust grievance redressal mechanism

B Concentration risk mitigation measures:

District centric approach
Maximum disbursement cap per loan account
Maximum loan exposure cap per customer
Diversified funding resources

C Operational & HR Risk mitigation measures

Stringent customer enrolment process
Strong IT system with access to real time client and loan data
Proper recruitment policy and appraisal system

D Liquidity risk mitigation measures:

Diversified funding resources
Asset liability management
Effective fund management
Maximum cash holding cap

(B) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include borrowings.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to the risk of changes in market interest rates.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings. With all other variables held constant, the Company's profit before tax is not affected through the impact on floating rate borrowings, as follows:

Particulars	As at 31 March 2026	As at 31 March 2025
Variable rate borrowing	27,944.05	42,839.14
Fixed rate borrowings	46,993.66	26,086.85
Total	74,937.71	68,925.99

*Accrued interest but not due and unamortized transaction costs are included in borrowings.

Interest rate sensitivity

A change of 50 bps in interest rates would have following impact on profit before tax

Particulars	As at 31 March 2026	As at 31 March 2025
50 bp increase would decrease the profit before tax by*	(139.72)	(214.20)
50 bp decrease would increase the profit before tax by*	139.72	214.20

* Sensitivity is calculated based on the assumption that amount outstanding as at reporting dates were utilised during the period.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. However, the company is not exposed to such risk.

The carrying amount of the Company's foreign currency exposure at the end of the reporting period are as follows:

Particulars	Currency	As at 31 March 2026	As at 31 March 2025
Financial liabilities	EURO	2,178.30	1,837.41
Financial liabilities	USD	4,709.33	4,240.37

(C) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

(i) Impairment assessment

The below mentioned notes, in conjunction with the relevant accounting policies, explain the company's impairment assessment.

- Definition of default

The Company considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

As a part of a qualitative assessment of whether a customer is in default, the Company also considers a variety of instances that may indicate unlikelihood to pay. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate. Such events may include (and not be limited to):

- All the facilities of a borrower from all the borrowed accounts are treated as Stage 3 when one of his facility becomes 90 days past due i.e. credit impaired.
- A covenant breach not waived by the Company

- PD estimation process

Probability of Default (PD) is an estimate of the likelihood of default in a homogenous pool of loans, over its performance period of following 12 months / lifetime horizon. PD estimation process is done based on historical & empirical internal data available with the company. Company calculates the 12-month PD by taking into account the past historical trends of the portfolio, credit performance including actual default data and Macro economic variables. In case of assets where there is a significant increase in credit risk (SICR) i.e. when a borrower becomes 30 Days past Due and is classified as Stage 2, a higher PD is applied basis empirical data of such customers defaulting. For credit impaired assets (Stage 3), a PD of 100% is applied.

PD represents the empirical residual value of loans at the time of default (during the performance period), relative to the principal balance of all Non-Default accounts at the start point of the performance period. 12 month period for which performance has been empirically measured. The Company assesses and empirically measure the possible default events within 12 months or lifetime. This PD factor is applied to all Stage 1 & Stage 2 loans, to estimate the likely of Default.

For credit impaired assets (i.e. Stage 3 assets), PD of 100% is applied.

- Loss Given Default (LGD) & Exposure at Default (EAD)

Loss Given Default (LGD) is an estimate of the ultimate loss arising when a default occurs. It is based on empirical contractual realizations from credit impaired assets (i.e. Stage 3 assets), after event of default including from the realization of any security This is computed basis seasoned defaulted loans.

Exposure at Default (EAD) is considered as 100% of Outstanding balance in respect of loan receivables.

- Significant increase in credit risk

The Company continuously monitors its Loan Portfolio in order to assess whether there has been an event which could cause a significantly increase in the credit risk (SICR) of the underlying asset or the customer's ability to pay and accordingly applies a higher PD rate. An asset can move in & out of SICR category based upon whether it has undergone SICR events that may include (and not be limited to):

- When one of the facilities of a borrower becomes 30 days past due
- Borrowers of a segment / industry / geography under stress

- Change in accounting estimates

Impact of updating the Expected Credit Loss (ECL) Model

The company periodically reviews and updates the model in line with the new inputs and performance trends to reflect the reasonableness and adequacy of ECL amount recognised as at reporting date. During the Financial Year 2025-26, the ECL model was reviewed and updated, and it has resulted into increase/decrease in expected credit cost for various cohorts of the Portfolio due to deterioration/ improvement in performance of the cohort.

(D) Liquidity risk and funding management

Liquidity risk arises due to the unavailability of adequate amount of funds at an appropriate cost and tenure. The Company may face an asset-liability mismatch caused by a difference in the maturity profile of its assets and liabilities. This risk may arise from the unexpected increase in the cost of funding an asset portfolio at the appropriate maturity and the risk of being unable to liquidate a position in a timely manner and at a reasonable price. We monitor liquidity risk through our Asset Liability Management Committee. Monitoring liquidity risk involves categorizing all assets and liabilities into different maturity profiles and evaluating them for any mismatches in any particular maturities, particularly in the short-term. We actively monitor our liquidity position to ensure that we can meet all borrower and lender-related funding requirements.

There are Liquidity Risk mitigation measures put in place which helps in maintaining the following:

Diversified funding resources: - The Company's treasury department secures funds from multiple sources, including banks, financial institutions and capital markets and is responsible for diversifying our capital sources, managing interest rate risks and maintaining strong relationships with banks, financial institutions, mutual funds, insurance companies, other domestic and foreign financial institutions and rating agencies. The Company continuously seek to diversify its sources of funding to facilitate flexibility in meeting our funding requirements. Due to the composition of the loan portfolio, which also qualifies for priority sector lending, it also engages in securitization and assignment transactions.

Asset Liability Management (ALM) can be termed as a risk management technique designed to earn an adequate return while maintaining a comfortable surplus of assets over liabilities. The scope of ALM function can be described as follows:

- Funding and Capital Management,
- Liquidity risk management,
- Interest Rate risk management,
- Forecasting and analyzing 'What if scenario' and preparation of contingency plans.

Capital guidelines ensure the maintenance and independent management of prudent capital levels for CAGL to preserve the safety and soundness of the Company, to support desired balance sheet growth and the realization of new business; and to provide a cushion against unexpected losses.

Commercial Paper - as a percentage of total public funds	NA	NA
Commercial Paper - as a percentage of total liabilities *	NA	NA
Commercial Paper - as a percentage of total assets	NA	NA
NCD (original maturity < 1 year) - as a percentage of total public funds	NA	NA
NCD (original maturity < 1 year) - as a percentage of total liabilities *	NA	NA
NCD (original maturity < 1 year) - as a percentage of total assets	NA	NA
Other Short Term Liability - as a percentage of total public funds	NA	NA
Other Short Term Liability - as a percentage of total liabilities *	61.48%	67.50%
Other Short Term Liability - as a percentage of total assets	47.15%	46.67%

* Total Liabilities does not include Total Equity.

e. Institutional set-up for liquidity risk management

The Liquidity Risk Management Policy of the Company is approved by the Board of Directors of the Company.

The Company has constituted an asset liability committee for overseeing and ensuring adherence to the limits set by the Board as well as for deciding business strategy of the NBFC (on the assets and liabilities sides) in line with the NBFC's budget and decided risk management objectives. The scope of ALM function can be described as follows:

- Liquidity risk management
- Management of market risks
- Funding and capital planning
- Profit planning and growth projection
- Forecasting and analyzing 'What if scenario' and preparation of contingency

This space is intentionally left blank

53 Capital Management

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

Regulatory capital	As at 31 March 2026	As at 31 March 2025
TIER I capital	18,271.83	24,215.96
TIER II capital	-	531.96
Total capital	18,271.83	24,747.93
Risk weighted assets	79,713.11	76,137.68
Tier I CRAR	22.92%	31.81%
Tier II CRAR	0.00%	0.70%
Tier I CRAR + Tier II CRAR	22.92%	32.51%

Regulatory capital consists of TIER I capital, which comprises share capital, share premium, retained earnings including current year loss less accrued dividends and TIER II capital which comprises of Hybrid debt instruments & general provision of standard assets.

As per RBI guidelines, the Company being a Non-Banking Finance Company has to maintain 15% of capital adequacy ratio for NBFC business.

Net Debt to Equity Ratio

Particulars	As at 31 March 2026	As at 31 March 2025
Net debt*	63,088.00	45,547.36
Total equity	23,765.06	26,472.30
Net debt to equity ratio	2.65	1.72

*Net debt includes debt securities + borrowings other than debt securities + interest accrued - cash and cash equivalents - bank balances other than cash and cash equivalents.

54 Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. - (a) the additional provisioning requirements assessed by RBI (or National Housing Bank(NHB) in the case of Housing Finance Companies) exceeds 5 percent of the reported profits before tax and impairment loss on financial instruments for the reference period, or
- (b) the additional Gross NPAs identified by RBI/NBH exceeds 5 percent of the reported Gross NPAs for the reference period.

During the financial year 2025-26, the Reserve Bank of India (RBI) conducted its statutory inspection of the Company under the applicable provisions of the RBI Act, 1934 and the Master Directions applicable to NBFC-Microfinance Institutions. The RBI issued its inspection observations during the year, and the Company has duly complied with all the observations and recommendations within the timelines stipulated by the RBI. The management does not expect any material financial impact on the Company's financial statements arising out of the said inspection.

56.33 Disclosure on Modified Opinion

The auditor have expressed an unmodified opinion for year ended March 31, 2026 & March 31, 2025.

However, market value in respect of quoted investments and break up / fair value / NAV in respect of unquoted investments shall be disclosed irrespective of whether they are classified as long term or current in (5) above.

56.37 Details of financing of parent company products

The Company doesn't have parent Company, hence this clause is not applicable.

57 Transferred financial asset that are not derecognized in their entirety

The following tables provide a summary of financial assets that have been transferred in such a way that part or all of the transferred financial assets do not qualify for derecognition, together with the associated liabilities.

The Company has transferred certain pools of fixed rate loan receivables backed by underlying assets by entering into securitisation transactions with the Special Purpose Vehicle Trusts (SPV Trust) sponsored by financial institution for consideration received in cash at the inception of the transaction.

The Company, being Originator of these loan receivables, also acts as Servicer with a responsibility of collection of receivables from its borrowers and depositing the same in Collection and Pay-out Account maintained by the SPV Trust for making scheduled pay-outs to the investors in Pass Through Certificates (PTCs) issued by the SPV Trust. These securitisation transactions also requires the Company to provide for first loss credit enhancement in various forms, such as corporate guarantee, cash collateral etc. as credit support in the event of shortfall in collections from underlying loan contracts. By virtue of existence of credit enhancement, the Company is exposed to credit risk, being the expected losses that will be incurred on the transferred loan receivables to the extent of the credit enhancement provided. In view of the above, the Company has retained substantially all the risks and rewards of ownership of the financial asset and thereby does not meet the derecognition criteria as set out in Ind-AS 109. Consideration received in this transaction is presented as 'Borrowing under Securitisation' under Note 20.

Particulars	For the year ended March 31 2026	For the year ended March 31 2025
Securitisations		
Carrying amount of transferred assets measured at amortised cost*	6,351.88	-
Carrying amount of associated liabilities (Debt securities -measured at amortised cost)	5,950.22	-

* Consist of unbilled & overdue principal.

- 58 During the year the Qualifying asset of the company is 78.08%, against the revised RBI guidelines of minimum of 60% (31 March 2025, 69.65%)

59 Transferred financial asset that are not derecognized in their entirety

The Company has assigned loans (earlier measured at amortized cost) by way of direct assignment. As per the terms of these deals, since substantial risk and rewards related to these assets were transferred to the extent of 90% of the assets transferred to the buyer, the assets have been de-recognized from the Company's Balance Sheet. The table below summarizes the carrying amount of the derecognised financial assets :

Particulars	For the year ended March 31 2026	For the year ended March 31 2025
Direct Assignment		
Carrying amount of transferred assets measured at amortised cost	9,356.69	610.08
Carrying amount of exposures retained by the Company at amortised cost	935.67	61.01

60 Instances of breach of covenant of loan availed or debt securities issued

Breach of covenant	As at 31 March 2026	As at 31 March 2025
Number of instances	14.00	15.00
Amount involved (INR in Lakhs)	29,297.55	26,482.00

- 61 There are no amount which are required to be transferred to the investor educational and protection fund by the Company as at March 31, 2026, and March 31, 2025.
